

## **ANTI-TRUST POLICY**

Brytor International Moving fully upholds the laws regarding anti-trust. Involvement in a cartel is unacceptable. It is against FIDI's core values of competing freely and fairly, based on the added value of its products and services.

A cartel is an agreement, concerted practice or conspiracy among competitors to fix prices, submit collusive tenders, divide or share markets and, more generally, restrict competition.

A cartel is regarded as the most egregious violation of Anti-Trust laws in most jurisdictions, which may lead to the imposition of significant fines as well as, in certain jurisdictions, criminal penalties.

This policy extends to all employees and parties acting for and on behalf of Brytor International Moving.

In addition to compliance with this policy all laws regarding anti-trust will be upheld.

We undertake to:

1. Never make direct or indirect (via third parties including agents, suppliers or customers) contact with an actual or potential competitor or other third party, the object of which is to engage in cartel behaviour.
2. Never propose or reach an agreement, whether directly or indirectly, formally or informally, with actual or potential competitors, regarding any sensitive competition-related issues, including:
  - a. Fixing prices;
  - b. Dividing or sharing markets, customers or territories;
  - c. Rigging a competitive bidding process.
3. Report any indication or initiative of improper anticompetitive business conduct by an actual or potential competitor in accordance to your internal reporting procedure, including but not limited to, reporting to your legal department and/or to the relevant Anti-Trust authorities.
4. Not participate in a meeting of a trade association in which sensitive competition-related issues are discussed. If such subjects are raised during a meeting, employees of FIDI Affiliates must immediately ask for the discussion to end. If not, they must leave the meeting and ask for that to be noted in the minutes of the meeting.

5. Ensure that all internal and external correspondence, including e-mails and texts, and documents, discussions and public statements do not contain any statements that might be misinterpreted by third parties or Anti-Trust authorities and courts in the context of a potential Anti-Trust investigation.
6. Maintain independent judgment in pricing or selling of any products and/or services.
7. Limit any information discussed during commercial negotiations, with or disclosed to competitors or other third parties, to that which is strictly necessary for completing or assessing the transaction.

The prevention, detection and reporting of cartel conduct are the responsibility of all those working in the provision of our service. If you believe or suspect that cartel conduct has taken place you should notify Brytor immediately.
